-- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --
Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

DETAILED ACTION

Claim Rejections - 35 USC § 103

1. The text of those sections of Title 35, U.S. Code not included in this action can be found in a prior Office action.
2. Claims 17-24 are rejected under 35 U.S.C. 103(a) as being unpatentable over Abolins et al. 4,504,613 or Lee, Jr. 5,008,314.
3. The anticipation rejection, the new matter rejection and the double patenting rejection are withdrawn by the examiner due to applicants' response. The obviousness rejection is maintained because of the reasons expounded in the following paragraph.

Response to Arguments

4. Applicant's arguments filed 7/14/06 have been fully considered but they are not persuasive. The examiner acknowledges that none of the cited references mentions pallets. However, Abolins et al. in column 6, lines 20-42 list a plethora of articles which can be molded from their claimed composition including major household appliances, while Lee, Jr.-s compound is explicitly for molding. See the Abstract and column 6, lines 61-66. Applicants' claimed pallet has no structure and it is just another molded article, which can be conveniently molded from flame-retardant, impact resistant molding compounds. It would have been obvious to one having ordinary skill in the art; at the time the invention was made, to use the compounds of the cited references for molded plastic pallets. As far as meeting the standard of the claimed UL 2335 protocol for pallets is concerned, applicants' claims do not show the amounts of flame-retardants needed to meet these standards. Applicants' specification however on page 21, lines

11-18; show a preferred range of phosphate flame-retardants of 10-30 parts. Since Abolins et al. disclose up to 20 parts of phosphate flame-retardants in claim 22, and Lee, Jr. teaches up to 15 parts of phosphate flame-retardants in column 6, lines 32-48, that limitation has been met.

Conclusion

5. **THIS ACTION IS MADE FINAL.** Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.
